## TOP NOTCH BRAND SEEDS AND BULBS

### FOR FALL PLANTING

We strongly advise more planting of clover and grass seeds in the fall. It is a known fact all such seeds when sown in September and October produce surer bigger crops than spring plantings.

Now all of your grain, such as Rye, Barley, Wheat and Winter Oats in August, September and October; even November plantings do well. Cover and pasture crops, such as Crimson Clover, Vetch, Burr Clover should be sown in August and through September. Don't put it off. Fall sown Alfalfa, Red Clover, Alsike, Timothy, Red Top and other grasses do best when planted in the fall.

Our booklet, "The Amateur's Garden Guide," will tell you how much to sow and when to sow. Get a copy; it is free to all customers.

Our seeds are all recleaned, the very best quality obtainable. Send us your orders. Our service and quality will please you.

Notice carefully the prices: Be sure to know whether you or we are to pay freight, express or postage, and bear in mind that we do not pay the express or freight charges on pecks or bushel, nor on grass seeds, field seeds or poultry supplies, except where we so state on the pages where the goods are priced.

All prices are for immediate acceptance and subject to market changes. However, we will protect these prices as long as we are able to do so. If you order any seeds by parcel post be sure to include money for postage.

**OUR GUARANTEE:** We won't ship you seed until we know they will germinate. Of course, we cannot guarantee you a crop, for we cannot be there to plant them or attend to them; and weather conditions sometimes positively prevent a stand. But you can take our seeds home, examine them, test them and call in your neighbor or county agent, and if you feel that you have not gotten your money's worth, or our seeds are not as represented, return them at once and we will refund the amount you paid for them. That's fair now, isn't it? We leave it all to your judgment, and all we ask is a fair deal, which we know you will give us. "Treat 'em right" is our motto.

## HEDGE PLANTS

AMOOR RIVER PRIVET—The best of the Privets for planting in the South. This type retains its bright green foliage all winter here. Strong 2-year plants, 10 for \$1.50; 25 for \$3.50; 100 for \$12.00.

CALIFORNIA PRIVET—Very popular, planted all through the South, but in our opinion not as desirable as the Amoor River, because after a few years it loses its foliage early in winter. Strong 2-year plants, 10 for \$1.25; 25 for \$2.75; 100 for \$10.00.

## COLE PERFECTION LESPEDEZA SEED SAVER.

Saves your Lespedeza seed while cutting your hay. Easy to operate, fits any standard mowing machine. The Cole Perfection Lespedeza Seed Saver is the best machine of its kind on the market. Write for circular. Made in two sizes, 4-foot and 5-foot cut of mower.

Price \$19.85 F.O.B. Memphis

## PARADICHLOROBENZENE

This is a new discovery that is endorsed by the Department of Agriculture for control of the Peach Borer. Surely a wonderful preparation and worth its weight in gold, even if it does half the manufacturers claim for it. It is far better than getting the borers out with a wire or knife.

Be sure to write to the U. S. Dept. of Agriculture and get Bulletin No. 796 on the control of Peach Borers. We can furnish you Para Dichlorobenzene at the following prices: 1 lb., enough for 16 trees, \$1.00.

F.O.B. Memphis, shipment by express only, not prepaid.

## POULTRY SUPPLIES

Our stock of poultry remedies, stock foods, poultry hoppers, fountains, incubators, borders, leg bands for poultry, sprayers, disinfectants, insecticides, is not excelled in this city, and remember our service is at your disposal. Ask for prices and circulars if interested.

Thanking our many friends and customers for past patronage and hoping to hear from you at any time, we remain,

Yours truly,
